BOB STEEGER

bobsteeger@gmail.com ♦ (703) 462-0848 ♦ www.linkedin.com/in/bobsteeger

AOL, Inc. (America Online) - Dulles, VA

Senior Product Manager

2008 – 2010

Developed product strategy, roadmaps, and use cases to increase web audience growth, engagement, and repeat visitation for third largest (ComScore) online real estate website yielding up to \$16M annual revenue. Managed product development, researching markets, identifying trends, collecting requirements, writing user stories, determining features, and designing customer experiences.

Product Innovation

- ♦ Increased partner lead conversions 50% by designing web pages for sales funnels
- ♦ Raised consumer engagement 40% by experimenting with page design elements based on Omniture web analytics and A / B testing results

Product Marketing

- ♦ Expanded market share 15% by creating a sister site, extending product line and targeting design toward niche market. Use case for future microsite experiments

Negotiation Skills

- ♦ Saved over \$1M year by negotiating cash free agreements by collaborating with partners on new marketing plans, features and increasing their brand awareness

Process Leadership

- ♦ Lifted traffic 20% by implementing product and content management standards for search engine optimization (SEO) within website design and content strategy
- ♦ Improved productivity 30% by leading eCommerce product team adoption of SCRUM practices and configuring Agile software (Rally) for group use

Product Manager

2005 – 2008

Defined product strategy, requirements and roadmaps to plan releases / sprints for multiple \$10M+ eCommerce websites. Implemented standardized processes for Product team. Collaborated with sales teams on strategy, presentations, and customer visits to define and deliver premium features.

Product Strategy

- ♦ First to market with real estate industry's first cross-pollinated search for homes
- ♦ Launched complete website rebuild in 5 months (company record) with significant changes to business models, engagement streams, and technical platforms

Market Analysis

- ♦ Conducted vendor analysis on 32 data suppliers in 8 separate data categories to determine best possible product differentiation and niche market positioning

Competitive Analysis

- ♦ Selected and negotiated 4 strategic partnerships, replacing most previous partners
- ♦ Increased visits and engagement by leading development on 4 website redesigns; included defining 3 publishing platforms and content management systems

Product Leadership

- ♦ Recognized as a product management leader by business owners and senior management for establishing Product Management practices and deliverables
